

airstream A100

AirPlay® Amplifier

Bridge the gap between Hi-Fi and Wi-Fi

The AirPlay enabled A100 is a next generation network-ready amplifier built for the way we play music today. It combines the latest wireless streaming technologies with finest audio system design, to bridge the divide between a world of digital music and your hi-fi speakers. Wherever you store or seek your favourite songs - on computer, smartphone, NAS drive or the cloud, or streamed directly from Internet radio stations around the globe - the classy A100 will bring them alive with amazing quality and realism.

FEATURES

Multi-Zone wireless integrated stereo amplifier / Compatible with Apple AirPlay® and our own Airstream Direct feature / USB input for charging, playback and Wi-Fi set up / Simple connection to Wi-Fi network using Wi-Fi sharing / 2 x 50 Watts audiophile quality Class A/B amplifiers / Totally silent operation / High resolution DAC / Software upgrades over Internet via Wi-Fi: future proofed, simple and automatic / IR Remote control unit (included) / Stereo RCA analogue inputs / Stereo RCA pre/ sub-woofer outputs / S/PDIF (Digital) optical input / DLNA compatible / Vertical or horizontal orientation – Stand included

USE AIRPLAY

After a simple set up onto your existing Wi-Fi network, you'll be able to navigate the music collections on your Mac® or PC, iPhone®, iPad® or iPod touch®, and stream uncompressed audio to your speakers in any room. Experience Spotify™, Last.FM™ and YouTube, and use the A100 in multiples to deliver the widest choice of online favourites to any number of rooms within network range. Away from a Wi-Fi router, you can still play to the A100 from your iOS device using the Airstream Direct feature.

DESIGN FOR SOUND

Built by Monitor Audio - acknowledged worldwide for its expertise in audio design for over forty years - the A100 blends true audiophile sound quality with 21st century technology and style. It's capable of driving speakers to incredible levels with its powerful fifty watt per channel class A/B amplifiers, similar in nature to those used by the best hi-fi amplifiers. Whichever source you choose, the A100 will render the sound with astonishing scale, detail and drama.

SIMPLY CONNECT

The breadth of analogue and digital input options available from the A100 provides virtually unlimited system compatibility. It can be used on its own, or as part of an audio/TV based system providing great sound for TV channels and games as well as legacy support for formats such as CD. If smaller speakers are used, add bass punch with a subwoofer connected to the A100's line outputs.

DLNA COMPATIBLE

The A100 also supports DLNA (Digital Living Network Alliance) streaming, allowing most third-party DLNA apps for iOS, Android and windows mobile to be used.

SIMPLY CONTROL

Front panel controls and the A100's slender remote control unit provide effortless switching between all input sources. A front-mounted USB connection gives you easy access for charging your mobile device, playback and Wi-Fi sharing setup.

LIFESTYLE APPEAL

The super-slim A100 is a stunning union of rigid polymer and die-cast aluminium, which looks cool and acts cool as well by doubling as a silent heat sink. Each end of the beautifully curved and compact A100 design is protected by durable toughened glass trims to preserve its designer looks in horizontal or vertical positions. Available in a choice of white or black the A100 will blend with any environment, even when space is at a premium.

“You'll get a lively, detailed performance with plenty of energy, emotion and refinement”

What Hi-Fi? Magazine - August 2014

“Superb performance; cool design; AirPlay integration.”

Hi-Fi Choice - September 2014

Frequency Response	20Hz - 20kHz
Power Output	2 x 50 watts
Loudspeaker Impedance	4-8 Ohms
A.C Input Voltage	90-264 V (auto-range)
Amplifier Category	Class A/B
Power Consumption	0.33 watts (Standby) 120 watts Maximum
Works With	iPhone 6, iPhone 6 Plus, iPhone 5s, iPhone 5c, iPhone 5, iPhone 4S, iPhone 4, iPhone 3GS, iPhone 3G, iPhone, iPod touch (1st through 5th generation), iPod nano (2nd through 7th generation) ~with iOS 4.3.3 or greater. PC or MAC running iTunes 10.2.2 or greater.
Supported File Formats	AirPlay AAC, ALAC, MP3 Airstream Direct WMA, LPCM, Ogg Vorbis, AAC, ALAC, MP3, FLAC
Server Interoperability	DLNA 1.0/1.5 UPnP 1.0 AV Media Server AirPlay enabled devices; PC/MAC/iOS
Wireless Network Protocol	802.11 b/g
Dimensions (H x W x D) Standing Vertically, In Stand	32.6 x 9.2 x 26.9 cm (12 ^{13/16} x 3 ^{5/8} x 10 ^{9/16} Inches)
Dimensions (H x W x D) Laying Horizontally	5.5 x 35.9 x 20.4 cm (2 ^{3/16} x 14 ^{1/8} x 8 ^{1/16} Inches)
Colour/Finish	Black or White
Weight	1.9Kgs (4lb 3oz)
Approvals	ETL / CE / FCC / CB / Erp / Wi-Fi / Wi-Fi WMM / Apple MFi Certified
